Warmest thanks to all of you across Ontario

The first edition of the CCAC Alignment *Project Update* was launched following the Local Steering Committee kick-off meeting March 21, 2006. This first meeting of the 14 new Local Steering Committee members included representative Board members, Executive Directors, members of PPWG and members of the alignment project team. The first edition of the CCAC Alignment *Update* was immediately released to inform everyone about the outcome of this important meeting. There was also a commitment to have a website for all staff and stakeholders to access in order to follow the project activities and news.

Now the alignment project team bids you farewell in this last edition of the *Update*. The objectives of the project have been achieved and now the new Executive Directors and their senior management teams continue to lead and implement the new CCAC organizations across Ontario.

At the outset, Minister Smitherman made a commitment that there would be "no disruption of client services" through out the alignment process. Everyone in the CCACs clearly embraced this promise. We all marvel at how time flies and how much all of you have accomplished in that short time frame. There were many deliverables that all of you helped to achieve. In the CCAC Alignment Project *Update* #1 through to 17, many of those milestones were outlined and you can continue to refer to these editions at www.ccacalignment.ca site if you want to recap.

While project objectives have been achieved, there have been many other achievements, often immeasurable. You have built a foundation for a dynamic, vibrant network of relationships that cross organizational, geographic and program boundaries. These relationships are being leveraged to build each of your new organizations. As you continue to innovate, share with each other and your partners and deliver quality services, you are building an even stronger system of CCACs across Ontario.

"It is a testament to all the people in the CCACs that this major change initiative was achieved without disruption of service to clients and their families. It has been a privilege and a real pleasure to work with so many fine people on such an extraordinary and rewarding initiative."

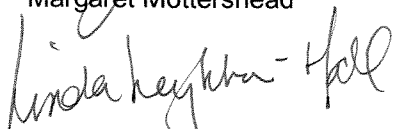

Margaret Mottershead
Project Team Lead

WARMEST REGARDS AND BEST WISHES FOR CONTINUED SUCCESS!
