Re: OACCAC CEO Announcement

The OACCAC Board of Directors is delighted to announce today that Margaret Mottershead has been appointed CEO of the OACCAC. Margaret will assume full responsibility as CEO immediately.

During this important period of transition, Margaret's leadership and experience will provide the stability that the Association believes is critical. She will provide the level of leadership necessary as we advance during this dynamic and challenging time of transformation in the Province's health care system.

Margaret is well known throughout Ontario's health care system. She served in a number of senior leadership positions in the provincial government including Deputy Minister of Health 1993-1997. In assuming this responsibility Margaret is excited and committed to the continuing development of the CCAC sector and ongoing integration with the LHIN partners. She looks forward to working together with all key partners on our behalf.
