Re: Interim Executive Director Announcement, Central West CCAC

I am pleased to announce that Mary Kardos Burton has agreed to become the Central West CCAC Interim Executive Director. Mary is a dynamic senior health care executive with an outstanding record of achievement, especially in the area of emerging organizations.

Mary joins us after a distinguished career as Assistant Deputy Minister within the Ministry of Health and Long-Term Care. As an ADM, she led the Acute Services Division and the Community Health Division.

Today, Mary focuses on interim management assignments. They have included: Chair, Information and Communication Standards, Accessibility Directorate of Ontario; Strategic Advisor, Toronto Central Local Health Integration Network and as the Interim Vice-President, Strategic Initiatives and Community Partnerships, United Way of Greater Toronto.

We could not be more pleased to welcome Mary to Central West CCAC. Her depth of knowledge of health care systems and in particular the CCAC sector will stand us in great stead throughout this change of leadership. We look forward to Mary joining us.

Regards
